ST-230

$779

Description

Our Inflatable Boats have been built since 1999. The quality and style of these boats have been continually improved as they continued getting feedback from the international community resulting in the high quality product we have on offer today.

All models have welded seams and reinforced beading over the inner joins for additional strength.

The quality of the material reaches a high international standard passing the thickness, weight, tensile, tearing and adhesive tests required to qualify. You can be sure our Inflatable Boats are up to the task after rigorous testing on all Materials used. Key Features:

Light-weight Inflatable floor Portable Our ST Series are suitable for yacht tenders and general use on lakes and rivers. Smaller than our other series, these inflatables are very lightweight making them easy to carry. There will be no problems lifting these onto the back of a big boat. Add an outboard bracket to turn it from a rowboat to being powered by an outboard engine. ($60)â€•
