Description

Mercury 3.3HP Two-Stroke Outboard

Lightweight, portable power. Mercury reliability. Simple boating.

The Mercury 3.3HP is a compact, lightweight outboard designed for boaters who want dependable auxiliary power without the weight and complexity of a larger engine. Ideal for tenders, dinghies, inflatables and small aluminium boats, this portable Mercury delivers practical performance in a package that's easy to handle, transport and store.

WHY CHOOSE MERCURY?

LIGHTWEIGHT DESIGN: Approximately 13kg, making handling, transport and storage easier.

DEPENDABLE PERFORMANCE: Mercury's compact two-stroke design delivers practical power for everyday boating.

SIMPLE OPERATION: Convenient manual starting and straightforward tiller steering.

360Â° STEERING: Excellent manoeuvrability for close-quarter handling.

INTEGRAL FUEL TANK: A compact, convenient setup for short trips and tender duties.

ADJUSTABLE TRIM: Four manual trim positions for added versatility.

COMPACT POWER: Ideal for boat owners who need practical auxiliary propulsion without a bulky engine. **Technical Specifications**
