

Mercury Bravo One XR Sport Master Drive POA

Description

Mercury Bravo One XR Sport Master Drive FEATURES Designed for boats capable of reaching speeds in excess of 90 mph. Four-slot, low-water pickup provides the best compromise of engine cooling while reducing debris ingestion. Gear ratios: 1.26:1, 1.35:1 or 1.50:1 in righthand or left-hand rotation. New skeg features a larger overall surface area. Standard and short models available. Precision CNC machined one-piece gearcase housing and skeg for improved handling at higher speeds. Digital trim sender.
