

MotorGuide X3 Freshwater Edition

POA

Description

MotorGuide is excited to introduce the new X3 trolling motor designed to deliver better performance and durability for anglers looking for the best value in the 40- to 70-pound thrust range. The X3 offers best-in-class steering performance. A dual cable pull-pull steering system eliminates slack, while the innovative patent-pending Variable Ratio Technology reduces torque steer feedback and improves responsiveness.

Features Durability means reliability - rigid aircraft-grade aluminum mount, stainless steel bushings and outer shaft, and composite shaft with a lifetime guarantee Quiet on the water - fewer metal-to-metal interfaces, precision bearings, and new composite locking pins eliminate more noise and ensure noise-free operation over time Precision steering - dual cable pull-pull system eliminates slack and provides the best-in-class steering performance
