Description

Suzuki DF2.5 Four-Stroke Outboard

The **Suzuki DF2.5** is a compact, lightweight four-stroke outboard designed for small boats, inflatables, dinghies, and tenders. Weighing just **13.5kg**, it's easy to transport, mount, and store – making it the ideal portable power solution for recreational boating.

Designed with user-friendly features so you can enjoy more time on the water, the DF2.5 is equipped with:

Twist-grip throttle – comfortable operation from various seating positions

Full 360° steering – excellent manoeuvrability in tight spaces and superior thrust when reversing

Water-cooled engine – improved durability and dependable performance

Integrated 1-litre fuel tank – provides close to an hour of operation on a full tank

Steering and throttle tension adjusters – fine-tune control to suit your preference

Forward/Neutral (F-N) shift – conveniently positioned on the starboard side

Oil level indicator – easy access for quick checks

Operation is smooth and quiet, delivering reliable small-horsepower performance with the efficiency and low maintenance benefits of four-stroke technology. Specifications
